

SC4 Amateur Radio Club
'19 Technician Class License Preparation

Two day class runs June 29 and 30, from 9:00 to 4:30 both days and will be held in La Honda at a location to be announced. Please bring a bag lunch.

We will be using Gordon West's "2018-2022 Technician Class" book, 9th edition (provided) as our text and assign as homework, practice using test apps on your phone or tablet. Plan to spend about half an hour each day with the practice exams. The cost for the class materials, including text book, is \$25.

Saturday, July 6, Sunnyvale Volunteer Examiners will administer a test session in La Honda. For the exam you will need to bring \$15 cash, two forms of ID (one with picture) and your social security number or FRN. You may bring a calculator. Youngsters can be identified by an accompanying adult with satisfactory ID. Within a few days after you pass the exam, your new call sign will be posted on the FCC database and you may download your license from the FCC.

If you cannot attend the exam on the 6th, there are test sessions on July 13 in Sunnyvale and July 20 in Redwood City and in Saratoga. We can help you find other exam sessions as well. Cost of the exam varies and presently runs about \$15, depending on the VEC administering the test.

Please complete the following and mail before June 14 with your \$25 check to:
