

Response Communications Net Script

rev. October 22, 2012

Is this frequency in use? (Listen for a response)

Net Control Operator Check In – 5 minutes prior to Net

The American Red Cross Response Communications Net will begin momentarily.

This is {name, call sign}, net control for the San Mateo County American Red Cross Response Communications Simplex Net. This net meets every Monday of the month at 7 pm on 147.420 MHz, no PL. This is a directed net. Please do not transmit until invited to do so.

Emergency or priority traffic will be recognized and acknowledged at any time during the net. Is there any emergency or priority traffic before we start the net?

Weekly participation in this net is strongly encouraged as a means of maintaining readiness to provide emergency communications during disasters.

This station will take the roll. Red Cross members need only respond with their call signs. Also, please indicate whether you have traffic for the net. When the net control operator cannot hear a station, then any station that can relay the traffic is encouraged to do so.

HF 40/80Meter (NVIS) Check in (10 minutes following VHF net on LSB 7280/7290/or 3790KHz in that order, traffic or band conditions permitting)			
Peter Chupity SC4ARC	KI6FAO	John Stone ARCBA	KA6IND
William Johnson SC4ARC	W6NZH		
Linda Bennett SC4ARC	W6LJB		
Dennis David ARCBA	N6CRJ		
David Schmidt ARCBA	AE6RD		
Barbara Neuhauser ARCBA	AE6RM		
Mike Yamamoto ARCBA	KI6OID		

Are there any officials from other emergency service organizations such as RACES, ARES, SSF CERT, SCARES, or the Hospital Group? Please give your call sign, name, title, and name of the organization. Do you have traffic for the net?

Are there any late or missed member check-ins? Please respond with your call sign, name, location, and indicate if you have traffic for the net.

Are there any casual listeners or monitoring stations that would like to check-in? If so, please respond with your call sign, name, location, and indicate if you have traffic for the net.

{Read any announcements for the net. Return to any check-ins with announcements.}

{Summarize net traffic.}

The Red Cross Response Communications Team provides radio operations for wildfires, structural fires, aircraft accidents, all natural disasters, and sheltering. This makes our Response

Communications group one of the most active response radio teams in disaster communications. To learn more about how you can participate in this humanitarian effort, please call:

San Mateo County Comm Coordinator – David Schmidt AE6RD (1-800-732-9843) email David.Schmidt@redcross.org and ask to join the San Mateo County Red Cross Response Communications Team, or stop by the Burlingame Red Cross office on any Monday of the month at 7 pm.

You are also invited to participate in the Red Cross net that meets every Wednesday evening at 8 pm on the Bay-Net linked repeater system on 443.225 MHz and 443.975 MHz, both with + offset and PL 100 Hz; and also on 145.390 MHz, - offset, PL 100 Hz. Also Burlingame office has a packet station WB6RC and you are invited to say hello on our BBS WB6RC-1.

This concludes the American Red Cross Response VHF/UHF Communications Net. We thank all operators for helping maintain a clear frequency during this net.

This is {name, call sign}, clear.
