

**SC4 Amateur Radio Club**  
**'21Technician Class License Preparation**

This five week class runs March 24 through April 21 and consists of approximately 20 hours of independent study, online practice exams and weekly, on-line meetings.

Our text book is ARRL's "Ham Radio License Manual" available for purchase online at <http://www.arrl.org/shop/Ham-Radio-License-Manual/> for \$32.95 plus postage. Purchase of the book includes an online practice app or you may use any of the free practice apps which we will show you in class. In addition to the text and practice exams we will hold on-line meetings each Wednesday at 7:30 PM to answer questions that you may have about the material.

After the final meeting we will set a date and time for a drive-in exam: Tests will be administered with you in your car and COVID-19 protocols observed. For the exam you will need to bring \$15 cash, two forms of ID (one with picture) and your social security number or FRN (we will show you how to obtain an FRN ahead of time if you do not already have one.) You may bring a calculator. Youngsters can be identified by an accompanying adult with satisfactory ID.

If you cannot attend the drive-in exam session, there are on-line test sessions we can help you find. Cost of the exam varies and presently runs about \$15, depending on the VEC administering the test.

Space is limited. Please complete the following and mail before March 10 to:
